

McKnight Brain Institute

Research Evening

“One image, 100 words”

Tuesday, Feb. 27
5:30-7 p.m.

*UF Biomedical Sciences
Building Atrium*

**Refreshments will be served*

This month's McKnight Brain Institute Research Evening data blitz theme is “One Image, 100 words.” Presenters will highlight one slide and explain it in 100 words or less.

We look forward to showcasing a variety of images, as the MBI helps support a state-of-the-art magnetic resonance imaging and spectroscopy facility, a multiphoton super resolution microscope, a light sheet microscope and equipment for multiple other in vitro and in vivo imaging approaches.

Interested in presenting?

Email secretary@mbi.ufl.edu by 5 p.m. Friday, Feb. 23 to submit your image and a title. All types of images and techniques are welcome.
